in addition to ...

courtesy and professionalism
... for us is usual ...

Has it been a success? This is what we ask you, we ask it at the 29 crews that have ended their challenge and that, arriving at the finish with a sunny smile on their bronzed faces have promised to come back in 2010 with the friends that this year have been at home to dream ...

We believe them, and we are preparing a sumptuous track with much sand that you have discovered and loved in 2009, with marvellous bivouacs where you can find the small and the great comforts that we all appreciate, with the courtesy and the disposal of the JVD staff, with the competence of the organisation that has got the best report of the season from FIA and FIM: these are not a mere trifle.

The formula of the Rallye des Pharaons Classic showed itself as winning and innovative, without the stress of the scratch results, without the fixed and heavy timing of the regularity, but with the pleasant goad of a real competition, with its classification, its winners, its personalities. All this under the steady control of an organisation of world level, with technical and logistical instruments that let you discover the Egyptian desert with total safety.
